The Florizel dispatch has it that several ships which arrived in the vicinity of Cape Race after the storm are looking for the bodies of the 131 missing of the Newfoundland. Efforts are being made to get further letails about this and other disasters.

The blizzard started Tuesday night and raged for 36 hours. Old-time navigators say no vessel caught in its full force could live through it. The wireless report indicates the men of the Newfoundland may have been eaught on the ice away from their ship and frozen to death, but it is more generally believed the ship sank.

Measure Is Informally Discussed; Hearing in Committee Scheduled to Begin Tuesday.

FRIENDS TO OPPOSE DELAY

Three Counter Proposals Are Prepared: Administration Has Slight Majority.

WASHINGTON, April 2.-Informal iscussion of the Panama tolls controversy, centering upon the various bills awaiting action in the Senate, continued today, pending consideration by the Interoceanic Canals Committee on the adninistration's repeal bill, scheduled to begin next Tuesday. Senators characerized the situation now existing as the full that precedes the storm and de-clared that once the actual opening of the fight on the floor is reached, a spectacular scene would be staged.

It was apparent among both the ad-

nistration and anti-repeal forces that the issue would not be permitted to be affected by the lull. Persistent efforts of the bill, to prevent any unnecessary

Interoceanic Canals Committee, and leading opponent of the repeal, reiterat-ed his intention to call a meeting of the committee Tuesday and Senator Owen, leading the administration forces, as-serted that public hearings on the bill were unnecessary and would serve only to prolong the controversy.

Senator Norris was prepared to de-mand immediate consideration of his measure providing for arbitration of the treaty disputes involved in the tolls controversy.

Senator Poindexter was ready to take

advantage of the first opportunity to bring up his measure calling for post-ponement of consideration of the toils he details of the foreign relations existing between the United States and other countries affected by the repeal.

Senator Jones also furnished another ssibility for action. He declared his ntention to press his resolution providing that the President furnish the Sen-ate with the names of all the nations which have protested against the tolls ferce it into early action.

To Put on Flesh and Increase Weight

A Physician's Advice.

Most thin people eat from four to six pounds of good solid fat-making food very day and still do not increase in weight one ounce, while on the other hand many of the plump, chunky folks eat very lightly and keep gaining all the time. It's all bosh to say that this is the nature of the individual. It isn't Nature's way at all.

The Hogans live in a handsomely furnished cottage at 27 Bay View place, West Haven, Conn. They have been married about 12 years, but have no children. Mrs. Hogan says her married life has been happy. Miss Williams, who is middle-aged and ossessed of means, has been a regular

Coroner Puts Society Man Under

\$5000 Bail After Strange

Special to the Post-Dispatch. NEW HAVEN, Conn., April 2.—The

authorities are investigating one of the strangest poison mysteries that ever has

come to their attention. John J. Hogan, arrested, Tuesday, charged with at-

tempting to murder by administrating poison. He was bailed in \$5000. Hogan

says the charge would look like a joke if it were not for its seriousness.

Coroner Eli L. Mix is disinclined to

talk for publication. He says, however, that enough cyanide of potassium to kill

a dozen person- was discovered.

A strange feature is that the intende

victims, it is said, are the inventor's

wife and her dearest friend, a Miss Margaret Williams, of New Haven. Neither women appears as voluntary

isitor to the Hogan home. About a onth ago, when she was a guest there. Hogan is said to have become irritated over a trifle and is said to have an-nounced "either she (Miss. Williams) sets out of the house or I will." Neither went, and Miss Williams continued to call as usual. Hogan has been suffering from stor

ach trouble and has been getting his meals recently at irregular intervals. A week ago last Monday his wife served supper ahead of the accustomed time and he ate it alone. Then he went to the sitting room to read. Soon Mrs. Hogan and Miss Williams sat down to Noticed a Queer Taste.

Tea was served with their supper. He gan had drunk some and later Mrs. Hogan poured tea out of the same pot for herself and her caller. A pot containing hot water also was on the table, as well as a small pitcher of cream. Mrs. Hogan drank her tea with her meal, while Miss Williams took her's afterward. Soon after the two women had seated themselves a neighbor ap-peared and said Miss Williams was wanted on the telephone. She went to the neighbor's house and returned 10 ninutes later. Her tea cup was empty. She refilled it and added sugar and ream. She declared it had a peculiarly oitter taste. She called Mrs. Hogan's attention to it. The latter said the tea

surely tasted queer.

The women decided to have the conents of the cups analyzed, so Mrs. Hogan put the tea in a bottle. She then poured a fresh cup of tea. There appeared to be nothing wrong about that The bottle was given to the family physician, who passed it along to a chemist. Analysis showed the tea contained cyanide of potassium.

Coroner Causes His Arrest. Coroner Mix sent for Hogan, que ioned him and then talked with Mrs. Hogan and Miss Williams. From the latter, it is said, he learned of the alleged quarrel with Hogan. The Coroner had Hogan arrested charged with attempted murder. His sister, Miss Jane Hogan, went on his bond. Hogan insists he had no cyanide of

potassium and that he had no reason for wishing to kill Miss Williams or his wife. He says the so-called quarrel with Miss Williams virtually amounted to

nothing.

Mrs. Hogan today told her husband's counsel, David E. Fitzgerald, that there was no truth in the report she and Hogan had not got along pleasantly. Miss Williams has left town. It is said she has gone to visit friends in Washington, and that her departure was at the request of Coroner Mix.

Mrs. Hogan says she did not leave the dining room while Miss Williams was at the neighbors answering the telephone call and that during the same period her husband did not enter the room. Yet poison was found in the cup of tea poured out for Miss Williams. The hearing in the case has been set down for April 11.

The turtle, which does tricks of a simple sort, was Peters' chief means of livelihood. Peters carries a card stating he is a structural iron worker and that his neck was broker in the Quebec bridge accident a few years ago. He places cards in the turtle laid himself open to the charge of resisting an officer. He bit the cards and dodge the vicious snap which follows. The turtle has a flexible extension neck, like a vacuum cleaning apparatus, and his grip is like a bull-dog's.

Turtle Resists Arrest.

Wednesday evening, when two policemen of the work on the streets, and started him for the bridge with the promise the fines would be stayed if he were out of the city by noon. When Peters started to claim his turtle, the Judge said he could not take it, as another street crowd might gather if he were to carry it. GOULDS REPORTED

Blair & Co. Said to Be Forming a Syndicate to Take Over \$20,000,000 Holdings.

NEW YORK, April 2.—The Sun today firm of Blair & Co. is actively engaged in forming a syndicate to take over the holdings of the Gould family in the Missouri Pacific and to eliminate the Goulds from that system.

"Wall street was firmly convinced that negotiations are actively on between the Goulds and the Blairs, and, in fact, that these negotiations have progressed to the point of getting the signatures of George J. Gould and the other members of the family to the documents. It is believed by some of the best-informed men in wall street that Mr. Gould has agreed orally to sell out

"In the three conditions, however, that according to Wall street's conv tion remain open, there is the possi-bility of the whole plan being thrown ever, as the famous plan of 1916 for a similar purpose was turned topsy-turviby Mr. Gould at the elementh minute.

"That a price for the sale of the tock be reached agreeable to the Goulds "That this price be agreeable to th rest of the syndicate members.
"That Mr. Gould's signature be

fixed to the papers.

Firm Members in Conference.

"John B. Dennis, one of the most active members of the Blair firm, was exceedingly busy yesterday in the of-fices of other big banking houses. At night at the Hotel Plaza three memnis, Edgar L. Marston and James A. returned yesterday from a five weeks

"George J. Gould said during the afternoon that he knew nothing about the report that he was selling out. He

could not be reached last night.

'The developments of yesterday had all the uncertainty and excitement that has attended every phase of Gould railroad financing. There was no definite statement by any member said to be a party of the proposed syndi-cate that it is in actual process of forming. No interest will take the ini-tial step toward publicity where a Gould deal is on. The keenest judged in Wall Street, bond men in close touch with affairs, asserted without reserve

"The vital interest of the Blair firm in the matter was pointed to as signifi-cant. Speyer & Co. and Blair & Co., are the principal bankers for the road and the firms most intimately connected with its affairs. It is obviously not the part of Speyer & Co. to be conof the Goulds, and the firm has remained neutral.

"The best bond men in Wall street sserted yesterday that the Missouri Paific has come to the point where a large number of leading bondhouses will r nain aloof from its financing unless the Gould influence is eliminated.

"It is believed that Blair & Co. is fully alive to this situation and has determined to initiate action in order to conerve the property. "It was learned yesterday on unques

ned authority that very strong banking firms stand ready to enter the syngoing development of the property

be agreed upon.
"The stock was very strong yesterday advancing 1% to 27%. The 4 per cent bonds opened at 61 and advanced 1% on 41 sales. Missouri Pacific securities have persistently strengthened whenever there was ground for believing the

Goulds were to retire.
"It is said that the syndicate forming may be willing to pay the Goulds five points higher for their stock, though

points higher for their stock, though the present price is considered high.

Holdings Nearly \$25,000,000.

"The united holdings of the Goulds amount to between \$20,000,000 and \$25,-000,000 par value of the stock.

"The chief factor in the possibility of the Goulds refusing to sell is that George J. Gould and Mrs. Finley J. Shepard, formerly Helen Gould, regard the road as a monument to their father and are leath to allow it to go out of and are loath to allow it to go out of the family.

the family.

"In the '90s Miss Helen Gould came to the rescue of the road when it was on the verge of receivership with her own money and tided it over.

"George J. Gould already has announced that the Gould money stands ready to heek the nayment of the served of the servership.

ready to back the payment of the \$25,-000,000 notes due June 14, an item which is giving the bankers for the road much worry and which, it is believed, is the immediate basis for the effort to change the ownership.
"John D. Rockefeller and the Rocke-

feller Foundation sold out their holdings of Missouri Pacific some years ago,

ings of Missouri Pacino some years ago, it was learned yesterday.

"There were many rumors yesterday that big interests had gone short of as many as 100 shares of Missouri Pacific as a hedge against the falling through of the present deal."

Offers to Pay Fine of \$500 and Costs to Escape Imprisonment at Clayton.

FATHER IS HELPING HIM

Prosecution Caused by Parent Whom He Accused of Aleniating His Wife's Love.

John Jackson Cole, 25 years old, son of Amedee B. Cole of \$705 Lindell boulevard, appeared in Curcuit Judge Wurdeman's court at Clayton, Thursday, for hearing on his application for a parole from a sentence to a year in jail for assault with intent to kill. Arthur N. Sager, his attorney, told the court Cole would be willing to pay his \$500 fine and the costs, which amount to about \$150.

Judge Wurdeman favors granting parole, but he continued the hearing until Saturday to consult Prosecuting Attorney Lashly, who has opposed it Eleven of the 12 jurors who convicte Cole, Jan. 12, also favor the parole. Father Caused Prosecution.

Cole's prosecution was brought about indirectly by his father after the young man announced, in 1912, that he would sue his father for allenation of the af-fections of his wife, Dorothy Cole, who now lives in Joplin, Mo. Since then there has been a reconciliation between father and son and the father is assist-ing the son in efforts to obtain a parole. Cole was charged with shooting at Oliver Heimbeucher, a neighbor, near the Cole country home in South Kirk-wood, on June 9, 1910, when Cole found his wife visiting Helmbeucher's mother cuted if he left the state. He lived in who finally left him to return to her

12, 1911, and he was not arrested until Nov. 16, 1912, after he had taken sides against his father in a family feud growing out of the management of the estate of Nathan Cole, father of Amedeo Cole now is farming near Union, Mo.

LETTERS FROM THE PEOPLE

The Wagoner Lynching. To the Editor of the Post-Dispatch.

An article appearing in today's issue of your men lynched a colored woman of Wagoner. Ok. After reading the article I was struck with a strong impulse to ask, "Why persecutest thou me?"

It seems that the attitude you and all other St Louis dailies assume is that a negro is not to resist a white man under any circumstances; and if one should become so audacious as to do so, he should be lynched. How, sir, does this harmonize with your conscience or your religion?

Your article (in tone if not in words) congrate

lates the mob on its action, and excuses them murder have had their sentences commuted by the Governor. Has the Governor commuted the entences of any white men? and would that be a sufficient ground upon which to lynch the next white man accused of a crime before he is proven

No mention is made of the circumstances which led to the stabbing. Could not your correspondent ascertain these facts? What were these white men deing in the negro neighborhood? Isn't it ossible the woman was defending her honor aght she to be lynched for that?

My dear sir, what the negro needs is more sym-pathy and help, not hounding and harsh criti-ilsm. At present we are absolutely without stimthat which is good and beautifu ithin us. We live by the tolerance of our white eighbors, without protection from or by the colics, without justice from the courts. We are absolutely forbidden to be men.

These things ought net to be. St. Louis, Mo.

Encouraging Race Suicide.

the Editor of the Post-Dispatch.

Will St. Louis ever reach the million population mark? How is it possible? All the property

Being a man who has lived in St. Louis all my life and having reared six children, I am unable to secure a place in which to house them. For three weeks my wife has haunted the residence districts of our beautiful old town, seeking to rent a flat; she has invariably been met with the same question, have you any children? Yes, six We don't rent to anybody with children.

THE TERMINAL BUGABOO.

rting to its usual device whenever it needed help to maintain its illegal and oppressive policies the Terminal combine is dangling a bugaboo before the eyes of St. Louis manufacturers. It is tearfully warning them that their business will be hurt if it is compelled to comply with the lecision of the United States Court and obey the law. It is trying to frighten the St. Louis manufacturers into supporting its monoply practices which have plundered them, by making the manufacturers believe that these practices are necessary to their prosperous activities.

Because the court has ordered the terminal to restrict its activities to terminal work as the common terminal agent of all the railroads and to cease operating under the fiction that it is an independent railroad taking and rebilling goods deits switching service betwen St. Louis tracks of its system and the East Side. The ruling of the Supreme Court, when en forced, will result in large benefits to shippers. Illegal charges that are now made by railroads and by the Terminal on the theory that the Terminal is an independent railroad and not, as the Supreme Court described it, a common terminal and an extension of the tracks of the railroads using it, will be eliminated. It is in anticipation of the consequences of this ruling that it now appeals to St. Louisans to help it maintain the fices the fact that a mob of white tion that switching on its system is railroad hauling.

The Terminal has always tried to make it appear that the fortunes of St. Louis business are linked up with the fortunes of its vicious monop oly. It has always schemed to get allies among the St. Louis business men by bribery or bulldozing, cajolery or threats. We assure it that its day of bribery, bulldozing, threats, cajolery, deception and evasion is gone. It must obey the law. FOR RUBAL HIGH SCHOOLS.

Four school districts in Knox County and part or a district in adjacent Lewis County have formed a "consolidated" school district with an is well put. But the writer is laboring under area of 59 square miles. The provisions of the misapprehension. Careful reading of the dis-Buford law for rural high schools passed a year ago can best be studied in the experience of those who have organized this greater school district.

They found that the State of Missouri is authorised to contribute one-fourth of the cost of their high school building, provided such contribution does not exceed \$2000. If an \$8000 building is put up, \$2000 of the money will come from must be classed among the most despicable speci Jefferson City, leaving only \$6000 to be raised by mens of human beings. The facts seem to in the district, a modest sum, considering its size and population. They also found that the State will contribute each year toward the running expenses of the high school, \$25 for each square mile of territory in the district, or \$1455 anhually. Certain standards in instruction must, however, be maintained. It must be a high school in fact as well as name.

The meager educational facilities provided for proper may country children are a national problem. The clear the generous Buford law helps to solve it in this

WHO IS "LORD" ASQUITE? One of our justly celebrated morning contem poraries, esteemed for its erudition, remarks editorially:

Lord Asquith is in danger of being called a trust—he has no competitor in the office-holding class aside from

the ubiquitous pooh-bah.

There is a jobholder, Mister Asquith, who was first lord of the treasury and lord of Glasgow University and who used to be lord chancello but who is this new and strange peer with the title? Of course, if our contemporary is elevating members of Commons to the peerage on its own account we will agree that a title conferred by an editor is just as good as one bestowed by a

BRITISH "NEW NATIONALISM."

Foreign Minister Edward Grey, in charge of the home rule measure in Premier Asquith's temporary absence, introduced a most conciliatory note in the acrid discussions,

He expressed a hope that before the six years exemption that may be permitted Ulster counties that avail themselves of the local option proviso has expired, a harmonious and comprehensive scheme of federation may be put into effect for the government of the British empire. Home rule in the historical perspective would then fall measures for introducing a scheme planned with reference, not merely to the needs of Ireland alone, but those of the entire empire.

"Who," asked Thomas Jefferson more than hundred years ago, "can limit the extent to which the federative principle may operate effectively? The larger our association the less it will be

shaken by local prejudice." The extent to which this principle is already operating effectively on this continent surpasse he wildest dreams of the fathers of the repub lic. A prediction in their day that London itself would borrow a foundation stone from its revolted colonies across the sea would have seemed in rational. But Minister Grey foresees the breaking down of the British parliamentary system It cannot be doubted that in their happy combination of strong central government with the broadest latitude in local home rule, the fathers Policemen gave the Secretary of the Civic used a workable principle destined to world-wide League an overhauling Tuesday night with the usefulness.

The new nationalism of England means, ac cordingly, the opposite of the new nationalism in America. The federative principle is the corol-"roughing it" in the country, in appropriate at- lary of the democratic principle in countries of spread of democracy and the new vogue of repesentative government will mean little to some Secretary Baldwin, indignant, protested to the former autocracies unless safeguarded in their Chief of Police and the President of the Police practical workings by the checks of the federative system. Growing appreciation of the value of the great principle abroad should strengthen our determination that no preaching of Cangerous new nationalism doctrine by our agitators shall be permitted to we ken it at home.

It is impossible not to admire the purpose Editor John W. Cassidy of the Granite City Press-Record, who promises, if elected Supervisor of Venice Township, to make "that gambling gang swim the Mississippi." However, we hope that when they begin their swim John will kindly see that they are not headed in this direction.

In the wreck of matter and crash of reputations that the lobby at Washington is causing in the effort to "get by" with the \$2,000,000 yearly grab of American money for the shipping monopoly, nothing will be seen, when a clear view appears, to be more absurd than what has happened to Clark.

The speed boss rushed to the production engineer's office. Here he obtained a red "ytop work on job No. 9478" card, which, after being signed by several foremen, was changed for a green "stop machine" card.

Some five hours later the laborers uncovered Moore, who was found absolutely unhurt and very lively. This latter condition was due to the fact that previous to the accident a barrel of black oxide of manganese had accidentally been spilled in front of the lathe. This coming in contact with the red-hot chips released oxygen, which sustained Moore's life during the trying ordeal.—American Machinist.

"We Democrats ought to apologise to the Republicans for all the years of abuse in which we have railed at their extravagance," said the Senator from Colorado. "I see that we are going to even greater lengths than they had thought of doing."

It is predicted that the appropriations made this year will exceed those of any previous year in the history of the government by at least 160,000,000. Of course Senator Thomas' suggested apology would have to include the sacred Baltimore platform with its denunciation of "Republican" extravagance.

That no tolls or operating charges whatsoever shall be levied upon any vessel or vessels, dredges or other craft passing through any canal or other work for the improvement of navigation belonging to the United States.

The question immediately arises in the

The clause in question was meant only to regulate internal canals and waterway improvements and while a captious interpretation might apply it even to the Panama case, there is small ground for believing that the courts would construe it thus. How Is Your Weight?

While it is true that too much weight is not to be desired yet the fact remains that many men and women are thin to the point of danger. This danger lies in their having no reserve force or nerve power to combat deadly diseases. A little extra flesh is needed by all to feel well and to look well, and this calls up the question of how best to increase the weight. Physicians and chemists, by experiments, have solved the problem of increasing the white and red corpuseles of the blood, by the administration of 3 grain hype-nuclease tablets, and this is usually followed by an increase of weight. Obtain in sealed packages, and take for a period of several months according to directions with package.—ADVER.

"We don't want it all," said Magee, removing his chamois gloves, "but we want our bit," We've got to pay our own board bills at Mother Dorn's, and we want to be declared in."

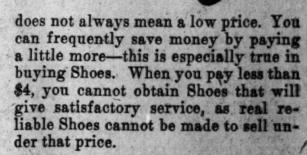

Britton's answer was short and to the point. Said Sky: "Tou're ha on the split. If I make hig money, you'll get hig money; if the yrefits are small, you're in."

"Beyond the fact that prices again in the face of all separations are pessimistic talk of the day, there little to say of today's stock market, ractional advances were the rule, ough trading was extremely dull, and se latter movement irregular. Towards se close there was the somewhat fadilar weakening of two or three separate stocks, under influences apart rom those affecting the general market. "It was again pretty plainly manifest at the outside public was more attacted to bonds, under existing circumsances, than to stocks.
"Today the curb's bid for bonds of the forthcoming New York City 14% per ent issue was advanced something more han half a point further, and the price of outstanding New York City issues oved up a smaller fraction.
"The noteworthy fact of the market is the number of separate bond issues sait in. The list in which there were ctual transactions on the exchange ast week was probably the longest in the institution's history.

Mr. Benton B. Busby Turns Out to Be a Very Sore Disappointment.

ENTON B. BUSBY, the visitor Mr. Jarr brought home, had made a great impression upon Mrs. Jarr and Miss Irene Cackleberry, the fair young guest from Peoria.

"A beautiful view, but suppose a fire should break out and you and your dear ones up this high?" "There are fire escapes at the back, Mr. Busby," said Mrs. Jarr, weakly. Fire was her especial dread.

"But think how many people are injured falling from fire escapes in time of panic," was the reply of the earnest Busby, "A broken leg, two broken legs, fractured ribs?"

"Oh, don't speak of those things!" cried Mrs. Jarr. "Suppose they should happen?"

"That is the very reason we must liscuss such things," returned the vis-tor. "Such things do happen, and it
